U First week in April

Sweet Making

We reasonably often make savoury things at scouts - spag bol or chicken in a sauce for example. However, we rarely cook sweet stuff. We will be tonight!

Second week in April

Quasar - please note timings!

I AM NOT GOING TO ARRANGE TRANSPORT FOR THIS however if you need a lift for your child and cannot find one yourself, please let me know.

I have booked two games at Quasar. We have exclusive use of the venue on both occasions so it will just be scouts playing. The first game will run from xx-xx, and the second game will run from xx-xx. Turn up for either or both - up to you. Scouts will be supervised between the games.

U Third week in April

Self Defence

I have booked a local self defence instructor who is going to come down to the hut and teach us some self defence (perhaps unsurprisingly!). When he last visited three years ago the scouts really enjoyed it and learnt quite a lot as well!

Fourth week in April

Where's Wally?

A huge exciting widegame played around the fields and woods . Bring a torch and wear old clothes....

April - St George's church service and parade.

June - Church Parade at Christ Church Little Heath

These events are not compulsory, but if you wish to attend them information will follow by email nearer the time.

U First week in May

Frisbee Golf and Tents

Ever played frisbee golf before? We'll have set up a nine hole 'course' around the campsite for you to see how accurate your throwing skills are. Holes will range from a par of two to a par of five. Prizes for any hole-in-ones that are scored! We'll also be spending a bit of time checking we know how to put our tents up before the summer camping season starts....

Second week in May

Skatepark & sport at venue tbc

I have hired the mobile skate park from Hertsmere Council. This will be set up, and we will rotate around every 15 mins between sessions for bikes and skateboard/scooter. You must bring a helmet if you want to take part. If that doesn't appeal, we'll also be playing sport on the field. Please note day and time - you do not have to attend for the whole event!

U Third week in May

Chariots

In teams, you will have to construct a 'chariot' out of chairs and poles and then race it round a course that we will have built for you. Depending on the weather this may or may not include a water jump!

U First week in June

Secret Agents

A number of challenges, obstacles and puzzles for you to solve to try and gain clues and work out who the secret agent is...

U Second week in June

Coconut tree, axe and saws

We have got new activity this year which involves climbing up coconut trees! It is possible to have timed races as well (on harnesses so you can't hurt yourself...) so we will be seeing who is the quickest at climbing as well. We'll also be spending some time learning (or revising) how to use an axe and saw safely.

U Third week in June

Rafts and Bridges (6-9pm)

Build rafts and bridges on the lake. A change of clothes/swimming shorts and a towel is strongly recommended! We will be starting an hour earlier than usual, but if you are really going to struggle to get there that early don't worry, just turn up at the normal time.

Fourth week in June

Activities

Still to be confirmed exactly what we are doing as our local activit centre are being particularly rubbish at returning phone calls. However, I have booked the rings for the ski slope, football and tennis and am hoping to book some trampolining as well. Scouts will be able to choose what they want to do on the day.

First week in July

Hike/Bike/Canoe

Either hike around a local landmark, cycle around the edge of a local town and back or canoe on the lake- we will find out what you want to do nearer the time...

U Second week in July

Cooking

Our last regular meeting of the term will see us practising our fire lighting and cooking skills again - particularly useful for you if you are coming on summer camp this year!

Tuesday July 15th

End of Term Spectacular (£7), 5-9pm

Our annual end of term bash at Tolmers, open to all. More information about it to follow nearer the time. Keep an eye on <http://www.nmscouts.org.uk/leots>

This is a websafe version of the programme, which does not list exact dates, timings or venues. If you are a member of our troop you can login to get an up to date programme. If you are not a member of our troop, but like the look of what you see and would like to get involved, go onto the website and click on the 'join us' button!
