

North Mymms Scouts

Programme April - July 2009 (Web Safe)

U - Uniform should be worn
L - Please let me know if you are coming to this meeting or not

Contact us via www.nmscouts.org.uk

L Third week in April

Quasar

I have booked two games at Quasar. We have exclusive use of the venue on both occasions so it will just be scouts playing. The first game will run from 7:30-8:10pm, and the second game will run from 8:10-8:50pm. Turn up for either or both - up to you. There is no cost to scouts - it comes out of the subs.

U First week in May

Rocket Building & Games

We will be spending part of the evening building professional level model rockets - capable of flying around 400 feet into the air! We will be firing them in a few weeks time...

U Second week in May

Fish and Chips and Rockets

Cooking on fires, the local fishmonger is going to supply us with some fish which we will prepare and then cook along with some cut up spuds to keep it company! We'll also try firing off the rockets you made tonight.

L Third week in May

Caving

We're off to explore a remarkable caving system. It's man made (so you know it won't collapse!) but remarkably realistic. Some of the passages I can walk through, others are small, but you can decide which ones you want to try. If you really can't beat the thought of caving I do have an alternative activity - please talk to me in advance. Meet and collect from the centre at the normal time, maps on website. Wear old clothing.

Fourth week in May

Quiz

Older scouts independently, younger scouts with adults will be set off around an area hunting for clues to solve a puzzle. Prize for the winning team. **NO UNIFORM**

U First week in June

Krypton Factor

An evening of team challenges and puzzles for you to solve.

U Second week in June

Ovens

It is possible to turn a cardboard box into a camp oven so you can cook oven foods on top of a normal campfire. We're going to try this tonight so see how well we can make it work, hopefully cooking some pizza!

U Third week in June

Bridges

An evening of building and testing bridges in the woods. We'll also be building a bridge over a lake - if you think you may want to test it, bring a change of clothes.. just in case...

U Fourth week in June

Catapults

I have a new design for building catapults which should allow us to fling things further than before and fire a larger variety of objects at the other teams!

First week in July

Cycling

An evening of bike themed activities. Don't worry, you don't have to be any good at cycling to take part (although you will need a cycle helmet). Those that want to will be able to get timed around a course in the woods, or try a jump or two and we'll also learn how to repair punctures if you don't know how to.

Second week in July

Games

Come along if you want to and play team games for the evening - you can choose from football, capture the flag, volleyball, rounders, cricket etc

Tuesday 14th July

End of Term Spectacular at Tolmers (£7)

Our annual end of term bash at Tolmers, open to all. More information about it to follow nearer the time.

This is a websafe version of our programme with key information (dates, times and venues!) missing. If you are a member, you can log in on the left hand side to get a more accurate programme. If you are not a member, but like the look of what you see, why not visit the website and click on the 'join us' link to find out more...
